REMARKS

25X1X

In the morning of 16 November, source saw 15 generals and estimated 200 officers including numerous field grade officers entering the building of the Panzertruppenschule in Juensdorf. They were army, air force and naval officers. It was of the opinion of source that they came for a conference. The installation was placed off limits to the entire German personnel with the exception of a small number of stokers who had to work without being relieved during the conference. The officers spent the night on 16 November at the installation. Some of the officers had even brought their own cooks. Intensive security measures prevented source from obtaining any details of the conference.
